## Diligent

DRC Technologies has been providing Greater Lehigh Valley Area Businesses with computer and

network maintenance services since it opened in 2002. From the smallest home based business to large corporate platforms, we are ready and able to provide you top quality performance for your computer network. Maintaining and keeping your IT infrastructure safe is our goal, enabling you to keep pace with your goals. When you are in need of immediate service from a reliable IT firm call us. We will repair your problems on a per incident basis, or we can provide you and your company a service contract assuring the sustainability of your computer network and peripheral devices. Our technicians are trained professionals dedicated to you, our loyal customers.

## Reliable

### Products

- **Custom Built Servers**– Built to your exact needs and upgradeable, we will provide you the highest quality server system with your future in mind.
- **Custom Built Workstations**– When it is time to upgrade your current workstations, terminals, or other systems we will build to your specifications the replacement systems, one at a time, ten at a time, or more, we will provide you with what you need.
- **Network Wiring & Cabling**– Regardless of upgrading in old construction or fresh installs for new construction, we have the ability, training, and manpower to get it done in a timely and cost effective manner.
- **Fresh Custom Network Design and Implementation**– Fresh, Replacement, or upgrades, one of our technicians will help you decide, design, and install your new network, or we can do it all for you.

## Courteous

### Services

- **Per Incident**–Call us when you need us, regardless of the issue we will be there to help, night & day.
- **Maintenance Agreements**– We will come to your designated place or places of business and provide in depth security maintenance, systems maintenance, and much more. Ask one of our friendly associates for an onsite evaluation of your needs.
- **Temporary IT Staffing Solutions**– Do you have the need for a full time or even part time in house technician or are facing a long term project but do not want the hassle of another employee? Call us, we can place a certified technician for as little as a week in your business environment. We will find, train, and manage the staff member, all you need to do is tell us what you are looking for.
